

not only our own interests but the freedoms of others.

RECOGNIZING MRS. ANN HEIMAN
OF GREELEY, COLORADO

HON. BOB SCHAFFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 3, 2001

Mr. SCHAFFER. Mr. Speaker, today I wish to recognize one of my constituents, Mrs. Ann Heiman of Greeley, Colorado. Last autumn, Mrs. Heiman received The Daily Points of Light Award for her community action and acts of generosity.

Mrs. Heiman's story is remarkable. A cancer survivor of 47 years, she has never stopped in her service to her fellow citizens. Mrs. Heiman was a founding member of the original Eastside Health Center, served on the task force for a family assistance organization, and was a founding board member of the Weld Food Bank—which distributes 37 tons of food weekly to those in need. She was also one of the first board members of A Woman's Place, a center for abused women, and she is a member of the local board of education.

I am extremely proud of Mrs. Heiman. I am proud to recognize her as an outstanding Coloradan. Her dedication to our western community and her compassion for all have made an enduring difference in the lives of her neighbors. I ask the House to join me in extending congratulations to Mrs. Heiman of Colorado.

TRIBUTE TO MARQUETTE POLICE
CHIEF SAL SARVELLO ON THE
OCCASION OF HIS RETIREMENT

HON. BART STUPAK

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 3, 2001

Mr. STUPAK. Mr. Speaker, as you and our House colleagues are aware, I have worked since my first day in Congress to bring a broad awareness of the needs and concerns of law enforcement officials to the floor of this chamber. I experience the great joy of this personal mission when I can speak, as I do today, to celebrate the career and dedication of a law enforcement officer at the house of this retirement.

Police Chief Salvatore Sarvello joined the Marquette, Michigan, Police Department as a patrolman in 1971, about the same time that I was joining public safety department in the nearby community of Escanaba. Our careers took different paths—I became a Michigan State Trooper and eventually entered politics, while Sal worked his way up through his department, becoming chief in 1995. Despite our different paths, we had numerous opportunities to work together, perhaps most significantly on the issue of methcathinone, an illegal drug that plagued northern Michigan for several years. Production of this drug, commonly known as CAT, took root in our area. With the help of Sal and other investigators in the region, I was able to develop legislation—

EXTENSIONS OF REMARKS

my very first piece of federal legislation signed into law—that took the claws out of this highly addictive substance.

Sal has always been a supporter of the COPS program, the wonderfully ambitious and successful plan to help cities, counties, townships and other municipalities hire additional law enforcement officers. I have worked hard in Congress to ensure this program continued to receive funding until the goal of hiring 100,000 new officers by the year 2000 was reached, and the support grass-roots support of officers like Chief Salvatore was essential in accomplishing this task. I worked with Sal for the visit of Vice President Al Gore, first in 1992 as part of a campaign swing for the Clinton-Gore ticket, and again in '94. I appreciate and applaud his professionalism in dealing with the complications, uncertainties and last-minute decisions associated with a visit on short notice of a national political to a small community.

A recent article in the *Marquette Mining Journal* notes that Chief Sarvello's law enforcement career actually goes back to the mid-60s, when he served as a U.S. Air Force Security police officer in Vietnam. This lifetime of public service, the article notes won't end with the Chief's retirement, because he plans to remain active with the Marquette West Rotary Club and with his parish, St. Michael's Catholic Church.

The chief looks forward to spending more time with Joan, his wife of 34 years, and his sons, Michael and Scott. At a special gathering Friday, the community will have a chance to wish the best to its retiring chief. Mr. Speaker, I ask you and our colleagues to join me in offering our thanks to this dedicated public servant, Chief Sal Sarvello, for a job well done.

INTRODUCTION OF BILL TO
AMEND CLEAR CREEK COUNTY,
COLORADO, LANDS TRANSFER
ACT

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 3, 2001

Mr. UDALL of Colorado. Mr. Speaker, I am today reintroducing a bill to provide additional time for Clear Creek County to sell certain lands that it received from the United States under legislation passed in 1993.

Under that legislation—the Clear Creek County, Colorado, Public Lands Transfer Act—the County took title to certain public lands with explicit authority for their sale, subject to two basic requirements: the County must pay to the United States any net proceeds realized after deduction of allowable costs, as defined through agreement with the Secretary of the Interior; and any lands not sold within 10 years after enactment of the Transfer Act must be retained by the County.

In the last Congress, I introduced a bill to extend for an additional ten years the period during which the County will be authorized to sell these lands. This has been requested by the Commissioners of Clear Creek County because it has taken longer than anticipated for

January 3, 2001

the county to implement this part of the Transfer Act. Additional time would mean a greater likelihood that the County can sell these lands, and thus a greater chance that the national taxpayers will benefit from payments by the County. Last year, the House passed the time-extension bill, but the Senate did not complete action on it.

The bill I am introducing today is almost identical to the one the House passed last year. The only difference is that the new bill would extend until May 19, 2015 the time for the county to sell the lands in question—one year longer than under the previous bill. The additional year would be provided in recognition of the additional time that will now be required for the bill to be enacted into law.

TMJ IMPLANTS

HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 3, 2001

Mr. TANCREDO. Mr. Speaker, in April 1999, I received a phone call and correspondence from TMJ Implants, a company located in Golden, Colorado, in my district, which had been having problems with the review of its Premarket Approval Application of the TMJ Total and Fossa-Eminence Prosthesis by the United States Food and Drug Administration (FDA). Over the last year and a half—and delay after delay resulting in the pulling of the implants from the market, I have watched the process drag on, leading to the loss of millions of dollars by the company and countless number of patients who have been put through unnecessary pain. While I will let my submission speak for itself, suffice it to say that I sincerely believe that most of the frustration could have been avoided had everyone sat down and laid everything out on the table in the spirit of what was called for under the FDA Modernization Act. Unfortunately, the agency has been unwilling to do so—and it seems that these problems will continue into the foreseeable future.

Over the last year and a half, my office has received numerous letters from physicians all across the country—from the Mayo Clinic to the University of Maryland—each relaying to me the benefit of the partial joint and the fact that the partial and total joint results in immediate and dramatic decrease in pain, an increase in range of motion and increased function. To date, there is no scientific reasoning for the fact that the total and partial joints are not on the market. All of this calls into question the integrity of the agency—something that I find very disturbing.

Dr. Christensen is a true professional and a pioneer in his field and holder of the first patents. His implants are widely accepted as effective and safe throughout the dental and surgery community—indeed, several of my constituents have literally had their lives changed by the procedure.

I am convinced that the work of TMJ is based on solid, scientific principles and the removal of the implants from the market has been and continues to be erroneous, contrary to the Agency's earlier findings and the statutory standard that should be applied.
